

# XA2 Update 4.2 --> 4.3

Beitrag von „Bellini“ vom 3. November 2021, 19:10

Leider wird das nicht behoben,

Zitat

## **Known issues to Android App Support 10 - Xperia 10 II, Xperia 10, and Xperia XA2**

- Sometimes, Android apps may not be able to use Internet connections via a mobile network. If there are connection problems later on (either WLAN or mobile data), stopping and starting the Android service at “Settings > Android App Support” should help. Toggling the connection off and on is another trick to try.

obwohl, es steht ja da wie geholfen wird. 🙄
